Camellia Rejuvenating Formula

Effective within one week!

Designed for those who want smooth skin and a youthful body. The formula combines six major beauty ingredients, including EGT-ergothioneine (each capsule contains 15 mg), reduced glutathione, PQQ, camellia seeds, salmon DNA nucleic acid protein, and ascorbyl palmitate (a fat-soluble form of vitamin C), which exerts anti-glycation, antioxidant, and anti-aging effects reveal a youthful, moisturized glowing look from within.

It helps improve aging such as dull skin, spots, fine lines, uneven skin tone, sagging, maintains the youthfulness of cells, improves skin tissue regeneration and restoration functions, strengthens the antioxidant and anti-aging capabilities of the skin, and provides comprehensive skin care for the whole body. Not only keeps skin hydrated and translucent, but also enhances immunity and memory, promotes sleep quality, relaxes the mind, easily repels the signs of aging, youthful vitality emanate from the inside out!

抗醣養顏丸 Camellia Rejuvenating Formula

Camellia Seeds-Natural Anti-Aging Ingredient:

Camellia seed extract is rich in antioxidants such as polyphenols and catechins, which help protect skin from free radicals and promote a more even skin tone. At the same time, it can improve basal metabolic rate and control weight.

Ergothioneine - a revolutionary high-end cellular anti-aging ingredient:

Used by top international brands, it has the ability to track stratum corneum and melanocytes, and concentrate on skin-level repairing; It can reach cell mitochondria, promote collagen proliferation, anti-oxidant, anti-glycation (inhibiting skin protein glycation reaction, reducing pigment and wrinkles), and anti-UV (reducing ultraviolet rays' damage to collagen fibers); It can protect the brain, enhance memory, reduce skin wrinkles and restore youthful state.

EGT can be found in mushrooms, oat bran, black or red beans and animal organs (such as liver, kidney).

"Anti-oxidant, Anti-UV, Anti-allergic, Anti-glycation" four major functions

Ergothioneine has 30 times higher antioxidant effect than glutathione, a sought-after beauty ingredient:

"AI" antioxidant: Through the body's unique transport protein OCTN-1, when cells are damaged (oxidation reaction increases), ergothioneine is transported into the cell membrane to eliminate free radicals.

Powerful antioxidant: Low molecular weight, highly water-soluble amino acids, super antioxidant power to remove free radicals.

Long-lasting antioxidant: Ergothioneine can be oxidized, reduced, recycled and reused in the body, and can maintain a certain concentration in the human body for a period of time.

PQQ - the secret for youthful skin:

It is a precious nutrient found in kiwi, spinach, soybeans, breast milk, etc. It can optimize the number of cell mitochondria, increase cell energy levels, accelerate repair and regeneration, resist cell aging, and keep skin young. At the same time, it stabilizes mood, improves sleep quality, energy and concentration, and reduces stress and fatigue.

20 mg of PQQ = 4 tons of tomatoes |
PQQ = longevity vitamins

Studies have confirmed that PQQ can increase the number of mitochondria by 163%; Improve skin elasticity 3.5 times.

Salmon DNA nucleic acid protein:

Extracted from the testes of deep-sea wild salmon, it is rich in DHA nucleic acid protein, which can repair damaged cells, promote collagen regeneration, lock in skin moisture and delay aging.

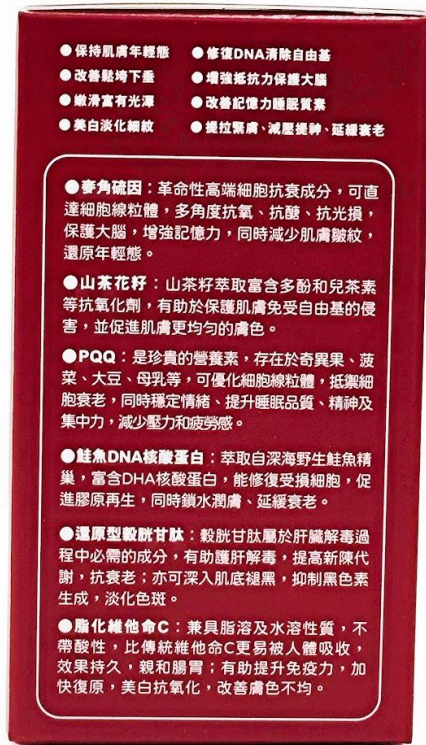

The best partner to support collagen regeneration: Salmon DHA is a life factor for cellular growth and repair. It can promote metabolism and protein synthesis and is the root of life.

Derived from the "Emperor of the Ice Sea", it repairs damaged cells, activates elastin, improves cells' ability to retain water, and restores healthy skin that is hydrated, smooth, and firm.

Activate collagen synthesis in 3 days to create baby-like tender and smooth skin!

Reduced glutathione - an edible whitening shot:

Glutathione is an essential component in the liver detoxification process. It helps protect the liver and detoxify, improves metabolism, has strong antioxidant effects, and helps resist aging. It can also penetrate deep into the skin layer, accelerate melanin metabolism, and kill melatonin up to 2.5 times. Inhibit melanin production, lighten spots, improve dullness, brighten skin tone, and keep skin bright and translucent.

抗醣養顏丸 Camellia Rejuvenating Formula

Ascorbyl palmitate (a fat-soluble form of vitamin C):

It has both fat-soluble and water-soluble properties and is non-acidic. It is easier to be absorbed by the body than traditional vitamin C. It has long-lasting effects and is friendly to the gastrointestinal tract. It can help improve immunity, speed up recovery time, resist oxidation, and improve uneven skin tone. Delay skin aging and truly preserve your youth.

1/ Non-acidic, more suitable for people with sensitive stomachs

2/ 5 times longer effective time in the body

3/ 4 times faster penetration and absorption
